

POCKET-SIZED MAX AIR PUMP

INNOVATIVE PRODUCT

OVERVIEW

The cylinder-shaped air pump has its advantages on portability and user friendliness as well as its small size with big power. It combines inflation and deflation, offering a wide usage of outdoor activity and leisure air mattress, boat, air bed and inflatable floating toys. The pocket-sized air pump aims to minimize the extra space and maximize your leisure time.

FEATURES

1. STRONG POWER

With enduring electric capacity of 3600 mAh, the product is the world's first lithium battery air pump, ensuring a continuous working for almost an hour. That means one charge enables over 20 times, freeing you entirely from constant charging.

2. ULTRA LIGHTWEIGHT

The wireless product, with high-quality ABS material, sizing up smaller than a Coke can and lighter than a smartphone, is ultimately portable. You can put it in the pocket and make it a brilliant companion for your backpacking trip and other leisure times.

3. ARTISTIC DESIGN

The cylinder-shaped gadget is exquisitely designed in simplicity and is only 1/6 of the conventional electronic air pump. The mellow arc is smooth in pursuit of giving you the premium touch.
