

# PORTABLE ANTI-BACTERIAL SHOE DRYER

INNOVATIVE PRODUCT

## OVERVIEW

The palm-sized product combines sterilization and deodorization, working by ionizing the ozone from air with high pressure and is capable of removing most of the odor substances, toxic gases. It generates anions using carbon fiber discharge technology, which is also functioned to deodorize, sterilize, decompose and purify the toxic and hazardous substances. The product is provided with built-in fan which is used for odor removal and air drying.

## FEATURES

### Time-Controlled Operation

Don't worry about safety with this easy-to-use gadget. You just give a slight touch to start a drying cycle. The first 40 min are for ozone sterilization and the last 30 min are for ventilation drying and odor removal.

### Chic Streamline Design

The good-to-the-touch casing with soft edges presents ultimate lightness and handiness. It is applicable in all semi-enclosed or fully-enclosed small space such as shoes and shoe cabinets.

### All-In-One Function

The shoe dryer provides an integration of practicality for customers, offering exquisite multifunctions including: Odor removal, ozone disinfection, sterilization and air drying.

## USE

Disinfection

Deodorization

Drying

## SPECIFICATION

### INDICATORS

### DESCRIPTIONS

DIMENSIONS(LxWxH)	134 mm x 64 mm x 37 mm
WEIGHT	Approx. 500 g
POWER SUPPLY	Input: DC 5 V / 1 A
POWERR	5 W
MAIN MATERIAL	IABS

SUITABLE FOR ALL SHOES (CONSISTENT TO THE SIZE OF THE PRODUCT)

EFFICIENCY OF DISINFECTION	99 %
NOISE	≤ 30 db
OZONE OUTPUT	0.4 mg/time (a work cycle)
TYPE OF KEY	Touch key
AMOUNT OF KEY	1
