

# PORTABLE COFFEE MAKER

INNOVATIVE PRODUCT

## OVERVIEW

The Portable Coffee Maker redefines the working principle of a manual coffee maker and sets a new standard on sectional hydraulic pumping systems. This way, water flow and pressure are dispensed more evenly than ever before. The result is an easy-to-use coffee maker, that reaches the same high-quality performance and the same rich flavour than any high class commercial electrical coffee maker.

## EASY TO USE

1. Put the capsule upside-down into the coffee basket

2. Screw the basket to the water chamber bottom tightly

3. Add water

4. Press the button

5. Enjoy!

## FEATURES

### Small but Strong

Mug-sized and providing perfect coffee. Rich in flavour, low in acidity and bitterness.

### Highly Entertaining

With our special milk frother feature, your imagination is the limit to make some fancy coffee.

### Maintenance-free

The materials used are easy to clean, so there is no need for caustic chemicals.

### Various Types of Coffee

You can make any kind of coffee you want!

With its very compact and fresh look, Portable Coffee Maker convinces just as much as with great functionality in a small space. There is no doubt that this coffee machine will improve your life quality once you have it.
