

# CONCH WOODEN SPEAKER

INNOVATIVE PRODUCT

## OVERVIEW

A perfect combination of music and art with graceful curve, charming shape and unrivaled sound. As a nuanced speaker, the aluminum front is complexly fabricated from wood grain shell and the powerful base is made of aluminum as well. Concerning on sound, it's 2.0 stereo separate chamber design which obtains the low-frequency radiation, natural and articulate sound and deep base. Moreover, touch control function facilitates you to switch modes freely. Every part together in harmony becomes a gorgeous ensemble.

## FEATURES

### Clear Acoustic Quality

Its 2.0 stereo separate chamber design covers a wide range of frequencies, produces perfect sound and deep base. Other features, like DSP audio process and DRC will make you feel like being personally on the scene.

### Touch key

Swipe to turn on, slide up/down to adjust the volume and switch modes freely.

### Bluetooth & Shape

Using the NFC feature, you can connect it with your phone and start your music journey by just a slight bump. Its finely tuned design comes from the materials used: The aluminum front is complexly fabricated from wood grain shell and the powerful base is made of
